**SUBSTITUTION OF ITEMS MAY BE NECESSARY**  
 Look on the reverse side for three more weeks of menu selections!

**Stay Safe: Baseball**

Baseball is a great way to stay fit and be active! Yet as you get older, baseball becomes a little more challenging—pitchers can throw the ball a lot faster and hitters smack the ball with more power. That means injuries can be more serious if you get hit by a pitch or a batted ball. Older children can run faster, too, so you've got to be extra alert when you're playing. No more looking at butterflies in the outfield! So to stay safe when playing baseball make sure to:

- Have the right gear
- Make sure to bring the gear with you
- Wear your helmet
- Warm up
- Stay alert—watch out for practice swings
- Develop your batter's stance
- Never throw bats or helmets
- Keep your head up when running bases
- Know your position and call that ball
- Watch out for foul balls

## 10 Ways to Be a Good Sport

Have you ever played on a team with somebody who hated to lose? Or maybe you have a tough time if you lose anything—even a game of tic-tac-toe.

Some children find it extra-hard to lose, but everyone needs to learn how to do it. Learning to lose without losing your cool is a skill, like learning to ride a bike. You might not be able to do it at first, but over time it will get easier. And when you can handle losing, people will call you a good sport.

1. Be polite
2. Don't show off
3. Tell your opponents "good game"
4. Learn the rules
5. Listen to your coaches
6. Don't argue with an official
7. Don't make up excuses or blame a teammate
8. Be willing to sit out
9. Play fair and don't cheat
10. Cheer for your teammates
